

## Functional Family Therapy- Foster Care

All children need a safe place to call home and thrive. CHR helps connect youth with the support and love they need.

CHR's Functional Family Therapy-Foster Care (FFT-FC) program provides support to families fostering youth with emotional or behavioral problems, helping to build safe and loving homes. CHR helps families develop specialized plans detailing long-term and short-term goals for each youth's emotional, physical, developmental and educational needs.
