

Milestone

Recovery from substance use is a journey. CHR is with you every step of the way to finding **Real Hope**, well-being, and stability.

PROGRAM DESCRIPTION:

Milestone is Connecticut's only intensive, short-term, 7-30 day residential substance use treatment center exclusively for women with co-occurring disorders. Milestone provides recovery-focused care for women struggling with addiction, the effects of trauma, and co-occurring conditions such as depression, anxiety, and PTSD. Milestone offers group counseling, case management, and aftercare planning services. Treatment is individualized and centered around healing and wellness, essential to moving forward towards employment, housing, and family stability. Length of stay is based on symptomatology and Carelon authorization. Our comprehensive services are recovery-oriented, gender-responsive and trauma-informed with the goal of helping women find real hope for recovery. Methadone services are available through our Pathways Medication Assisted Treatment Program. Care is provided in a respectful environment on CHR's Putnam campus.

INDIVIDUALIZED CARE PLANS:

- Group Counseling - Sessions advance the goals of individualized treatment plans for women, addressing addiction, trauma, and mental health issues.
- Family-Centered Interventions - CHR helps facilitate interventions that address all members in the family and include efforts to improve relationships with significant others, including partners, parents, siblings, children and caretakers. Family interventions are an important aspect of each client's recovery.
- Life-Skills Activities - Activities include health education and development of self-care plans, health promoting lifestyle interventions, personal care and life skills, employment skills, parenting support and improving family relationships.
- After-Care Planning - After-care planning is a major focus of treatment which starts at the time of admission to the program. Our goal is to help women return to lives of stability and recovery.
